## At REPA

**We are fostering academic creativity.  
Integrating academic society strategically  
and merging services creatively.**

REPA is a not-for-profit and non-political association registered in Japan (Reg. No. 3600-05-006134) owned by a team of dedicated international researchers and scholars from more than ten countries. We derive our vision from an extraordinary ambition; do not limit the challenges, but challenge the limitations. As a leading and trusted association, we envision mitigating the real-life difficulties of mankind through innovative research and smart education. It gives us a sense of direction and destination.

REPA owes its success to the bold declaration of elite scholars' support globally. We rely on available opportunities to contribute towards humanity at the national and international levels.

**A committed team with a strategic vision within a competitive context of education and research is a distinct sign for a continues success.**

The REPA Team's innovative and creative contributions made it a global research and networking platform.

**“ It is rather a blessing to be in a workplace where respect and compassion that guarantee creativity and success. Take care and enjoy a good bond! ”**

After all that we shared and discussed in 2020, you have been a lot more than just a colleague! I learned how to handle workload pressure to joyful entertainment with only changing our perspective. You revive the REPA dreams; you did a lot more ... shaped these dreams to strategy, continued with plans, and finally make it a great achievement of 2020.

Not only this, you empower me to continue and accept failure for enjoying success and don't stop where I am.

Most importantly, contradictory work experiences with tens of colleagues and hundreds of volunteer scholars enable me to realize the meaning of success??! which is not only achieving what we plan but spending time in pleasure and support of each other.

Sure, new projects and plans come up every year, but ***always I will seek your support and look whether you are part of the team or not!***  
***I hope your feeling is the same and you have enjoyed working to together.***

Take care and stay safe.  
Regards,

Dr. Mir Sayed Shah Danish

**The Annual Report will be available by the end of May 2021, to track your achievements ...**

REPA believes in change; we are always ready for any possible transition empowering humanity for long-run sustainability. We have built our approach to experience and expertise. We disseminate standardized academic research and innovative education throughout the world. While it is easier to claim to be the best, it is difficult to qualify. Let us demonstrate our claim!
